

## Australian International Stamps. Koala – Kangaroo Count

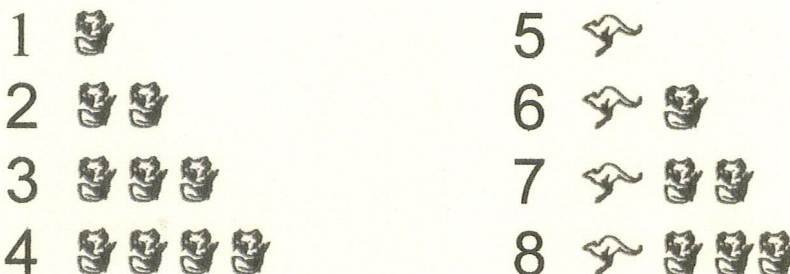

With the introduction of the Goods and Services Tax (GST) which came into operation on 1<sup>st</sup> July 2000, changes in the GST Act and the Postal Services Act, International postage stamps are exempt from the GST.

The internal postage within Australia attracted the 10% GST. International Post was exempt from the 10% GST. Australia Post had to distinguish between the internal use and the overseas postage.

Australian International Postage Stamps have a blue bar on the left-hand side of the stamp with the words 'International Post' printed in white in the blue bar.

The first issue of international stamps was issued on 20/06/2000 showing panorama views of Australia. The set of 8 ranging from .50c up to \$10.00. were taken by designer Beth McKinlay from photographs of the views printed.
